
CATS ILLUSTRATED

Mavis is attacking today!

At 3:00 P.M yesterday, Mavis started her attack march. In the image above, Mavis and her team are marching steadily to Lemon's fort. Annie and her friends, all falcons, are scouting ahead. However, it will be a few more hours until Mavis and the other attackers reach Lemon's fort.

Mavis's team isn't the only one trying to attack - Rudy is leading a team, an Juliet is leading a team. Judy decided to stay and guard her bush home, because it is really nice and there are other nice cats living near it that don't want to fight. Judy also wants to make sure that her mate, Max, comes

safely back from his trip to see family in 2 days. School has been canceled for the whole week, and Judy's kittens are doing different things. May, Ice, and Hazel are still working part time jobs, but Judy jr., Blackfur, Sir Maximus the third, and Maxine want to fight. This is okay, but Judy gave them some onion and lemon bombs just in case.

Mavis's team approached Lemon's fort at around 5:00 P.M. and Annie and her friends were already disabling or talking the guards into turning onto their side. However, it seemed like Lemon was threatening the families of all of the falcons that worked for him, and that if they didn't do as he said, he would kill their families. This was enough to make most falcons do his bidding. Annie and her friends still managed to talk some sense into 2 falcons, who joined their side in attacking Lemon.

Mavis threw some ropes up one side of the fortress wall, careful to do it just when Juliet and Rudy did it, so then it would sound like 1 rope. Then, Mavis climbed up the rope and secured it more tightly. The next cats followed, and soon, everyone was on the wall. Lemon seemed to be in a massive mansion that towered over the camp, with large windows and security cameras that could see every part of the camp. Mavis, Rudy, and

Juliet's teams would have to be very careful when sneaking in. Lemon had heard the ropes on the wall, so he was on edge and surely suspicious. The attack teams would have to be silent, unnoticeable, and quiet. However, all of the attack details would consume so much space in one Cats Illustrated issue. So, look forward to tomorrow's one, because I'm going to continue this story for sure! And as always, enjoy!

“I want to shout, “we got you Lemon” as loud as I can, but I would give us away for sure!”
