Harvey is currently in hiding!

When Mavis made the announcement publicly that Harvey, yes 8 year old Harvey, was the greatest cat wrestler in the history of wrestling, The Muscle. At first, cats didn't believe her. But when Mavis showed them the video of herself getting beaten up by Harvey, all of the cats formed a stampede, shaking the earth as they ran full out to Harvey's house. Harvey had been evacuated, with his closest belongings and his trophies. North and all of his other roommates have also been ushered through the secret passageway that Harvey has just in case. They are now in a secret bunker right underneath the house, with 2 security agents guarding them. North had called for the security agents when he heard what was going on. However,

Harvey was not worried about cats finding his secret hideout. However, he had one more thing to get. The security agents left soon after and arrived back carrying Harvey's favorite couch from the addition to his therapy studio.

Currently, Harvey, North, and all of their other roommates, including Smoke and Coffee, are furious with Mavis for revealing the truth about Harvey, ruining his chance for a normal life here. Now that fans know who he is, he won't be able to go to the store without security agents, a disguise, and a crowd of fans trailing him. But all of the cats who live with Harvey want to make Mavis pay. And pay for the damage to his home after the fans swarmed through it. Mavis didn't exactly tell the fans to march on The Capitol, but she did tell them to destroy Harvey's home, and maybe even his chance for a regular life. This could be seen as an equivalent crime.

Naya, Rudy, Judy, and Stripy are appalled at Mavis's behavior. "You just took Harvey's chance for a regular life and threw it down the drain. And you probably destroyed his favorite armchair!" Says Judy, who almost immediately sparks a reaction from Rudy. "No!" Rudy argues, "You just told the fans that Harvey lived in a house, and now their going to destroy that! I think that is much worse." The reporter left immediately as the next 5 minutes might contain inappropriate language and conflict for children.

"I don't want random cats who happen to be fans of The Muscle rummaging through my stuff!"

PERSONAL PERSONAL
BELONGINGS

Poor Harvey.

Harvey is planning on Mavis make up everything to him, because she has or will have destroyed everything he has, including possessions, home, and chances. Mavis is not going to have fun at the wrestling tournament coming up. You have to have 10 fouls before you're disqualified, 9 would still work...
