# CATS ILLUSTRATED

---

**The wrestling tournament is under way!**

The wrestling tournament, in which 8 cats are competing, happened late yesterday. This is the Cats Illustrated's report on what happened at it.

Harvey had been nervous all day, and hopefully this wrestling match would take away some of the tension. However, Mavis was also thinking about what she might do, including fouls and dirty play. But, Harvey is thinking the same think in his changing room before the wrestling match. Now, the matches have started. Harvey is up against an amateur wrestler cat, and he easily wins the first 2 rounds out of 3. However, Harvey gives the cat a pat on the back and tells them to keep trying. Mavis is up against another amateur cat, and she brutally wins round 1 and 2. However, Mavis

doesn't even acknowledge the other cat after the two rounds. She just walks away. The other 2 matches end quickly and 2 more cats are eliminated. Then, Harvey has a slightly more experienced fighter to deal with. However, Harvey still wins the first 2 rounds, but they were close. Mavis also has to deal with an experienced fighter, but this one is number 4 wrestler in the world. So, Mavis loses the first round but wins the next 2.

Now, there was a break before the wrestling championship. Because Harvey had lost fewer rounds than Mavis, he got to pick the starting position. While Harvey did that, Mavis rebooted in the changing room and got herself a snack. She would try to beat Harvey, with a few tricks she had learned from Naya herself. These included the joint weakener, the foul that couldn't be detected, and the hard hit that looked like it was soft. These tactics could take out even the best wrestlers, and Mavis knew it. Harvey stood no chance against her.

Before Mavis knew it, it was time for the championship wrestling match to start. The stadium was packed, but Mavis could make out Naya and Stripy and Rudy and Judy with their kittens all holding Harvey signs. Mavis's kittens held a sign for her, but all the other kittens were rooting for Harvey.

Mavis turned away. She had done something bad, and she was paying for it. Mavis was ushered into the ring, where she faced Harvey from the upper side. When you were on the upper side, you could gain the most power by charging down. However, the lower side was better for cheating on. Harvey would have the cheating advantage in both rounds.

**“This could either end their rivalry, or make it worse, or just make Mavis or Harvey angry.”**

- STRIPY, A PEACEMAKER.

Mavis faced Harvey with determination in her eyes. She would win this wrestling match, and get another gold trophy. The clock counted down, 3, 2, 1, 0, and then, Mavis leapt.
