
CATS ILLUSTRATED

One of Judy's movies is getting published!

Judy, though not many cats knew, has made many great movies. However, after filming North and Naya's relationship secretly, her movies' popularity dropped. But, the National Movie Publishing Corporation has chosen her movie, *The Murder of Judy White*, starring Scratch, who is a gangster, and Judy. It is a pretty good movie, but Mavis has a sore spot for it because she was one of the actors, without even knowing it. However, even Mavis admits that this is the kind of movie that Mavis would go to the theaters to see. The movie will be released by the National Movie Publishing Corporation by the end of May. This is excellent news for Judy.

Judy's close family, including her sisters, their kittens, Harvey, and his

kittens, are very happy for Judy. Rudy has immensely enjoyed watching Judy's movies, though she wouldn't ever admit it. But even Rudy congratulated Judy when her movie was first picked to be published. I mean, this means that any cat in the United Catstates of Camerica can see Judy's movie in the theaters, or just by downloading it on one of their devices. Not many cats get their name as the top cat in the credits in a publicly shown movie.

Scratch, the other main character in Judy's movie, has moved into a real home, and is thinking about trying to start a relationship with another cat. He has let go of his gangster days, after being kicked out of 3 gangs in a row. Scratch is now a very nice cat, and because he is now considered an actor, he has been invited to be in some other shows. Scratch is happy that Judy gave him the opportunity to star in many plays and movies to come.

But while things seem to be going so well, Judy has been reading up on what it actually means to have a company publish your movie under their name. The site on the internet that Judy is reading from states that, "you'll end up paying the company more money than the movie makes than you will get yourself!" Judy has now been thinking that she should turn down the offer to get her movie published. And, after conferring with Max, her mate, Judy has sent a refusal letter to the company who would have published her movie.

"It would have been easier just to take that company up on their offer."

- RUDY, WHO PREFERS THE QUICK WAY AROUND THINGS

to how to publish her movie by herself. Judy is starting to follow these directions, and soon enough, her movie might be in the theaters.
