# CATS ILLUSTRATED

---

**There is a new private clubhouse being built!**

On the South side of Pawsville, a new clubhouse is being built. It will be part of a complex owned by the club, including golf, large and clean pools, a huge field, a sauna, and more. The company building the club complex is part of a chain that builds these clubs all over the country. If you are a member, you can access any of them.

**Image above - Harvey, who's going to join this club, whatever it takes.**

---

The club has already been mostly built, so right now the company has come through Pawsville trying to find new member possibilities. Being a member costs a lot per year, but it covers all of the benefits included, like the outdoor restaurant and the snack shack. When the company came

through, kittens all over rushed up to them, with pooled money and hopeful eyes. However, they got a nasty surprise. The new club was adult cats only. Even when Lunch asked about a family membership, the company said no.

At first, adult cats were annoyed. But then, they realized the advantage of having a huge country club to themselves. The pools would be urine-free. There wouldn't be kittens running around trying to disrupt things. The snack shack wouldn't be out of ice cream on a daily basis. This realization has led many adult cats to go and buy a membership. Rudy and Judy both bought memberships, but this time neither one was trying to spite the other in any way. Harvey bought a membership, along with North, who just squeezed by the age minimum. But Judy's kittens were two months too young, which was a hard blow for them.

However, when kittens heard that their parents got memberships without them, there was chaos in many houses. Rudy's kittens locked Rudy and Blackspots in the attic and searched through their room to try to find the memberships. Luckily, Rudy had hidden her's and Blackpelt's memberships inside her unused coffeemaker. But Judy was not so lucky. She had kept hers in a secret compartment in her room, which unfortunately for Judy was half open already. Right now, her kittens have confiscated her membership.

Image above - Harvey, who didn't need to hide his membership because he, Makenna, North, Smoke, Reposado, and Reposado II all have one.

**“I put my membership in a stolen wallet!”**

*- NAYA, WHO PICKED A SMART PLACE*

Though Judy's membership has been confiscated, all other parent cats have been lucky. Even Max took the time to put his membership somewhere safe, which annoys Judy. However, Judy has talked to the company, who say that since she has already paid for the membership, she can have another printed copy of it. Judy is greatly looking

forward to using her membership to get into this club, because she has a soft spot for ice cream by the pool.
